

Join the City of Mason and Assurex Health for the capstone event in our annual Research & Science Series.

# The Science of Genomics: Why It Matters to You

**Earlier cancer detection. Highly tailored drug treatment plans. Better diagnosis of rare genetic disorders.**

The solution to many modern-day challenges lies in the field of genomics via the sequencing and analyzing of genomes. Join one of the field's leading experts as he discusses cutting-edge research and development in the industry and benchmarks how community engagement at all levels has played a vital role in HudsonAlpha's commitment to the future of science and health innovation.

## FEATURING

**Dr. Neil Lamb**

*Vice President  
for Educational  
Outreach and  
Faculty Investigator*

*HudsonAlpha Institute  
for Biotechnology*

**THURSDAY,  
OCT. 12, 2017**

**5 to 6:30 p.m.**

William Mason High School Auditorium  
(Doors will open at 4:30 p.m.)

513-701-5000 or [asanders@assurexhealth.com](mailto:asanders@assurexhealth.com)

### WHO SHOULD ATTEND?

- Anyone interested in learning more about how genomes affect your everyday life and health
- Leaders in the scientific community interested in HudsonAlpha's approach to community engagement
- Employees in Mason's rapidly growing biohealth hub
- Students of science or other STEM fields

### ABOUT THE COLLABORATION:

The City of Mason and Assurex Research & Science Series is a unique economic development collaboration that feeds connectivity among our corporate partners and engages scientific talent in Mason to promote breakthrough ideas in our schools, community and beyond.
